

Bounce Ball

Question: How many times did the ball contact the walls?

Executable Ground-Truth Trace

Scene Description:

- Ball bouncing between walls at 1.0 Hz.
- t = 6.49s: wall_contact (wall_negative) → c=1
 - t = 7.49s: wall_contact (wall_positive) → c=2

Final Answer: 2

Blinking

Question: How many times did the object blink?

Executable Ground-Truth Trace

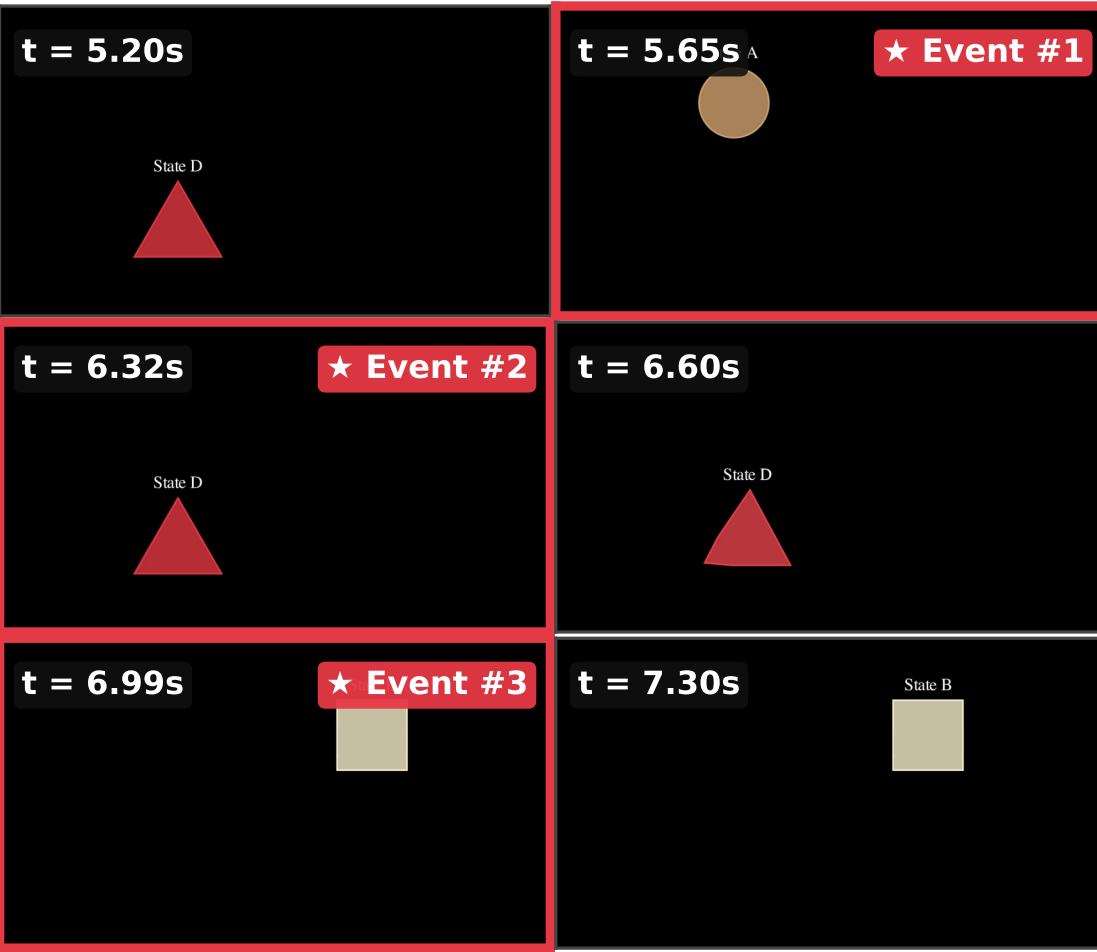

Scene Description:

- An object pulsing ON and OFF at 1.0 Hz.
- t = 19.22s: blink_pulse (state: ON) → c=1

Final Answer: 1

State Machine

Question: How many state transitions occurred in the video?

Executable Ground-Truth Trace

Scene Description:

- Visual state transitions at 1.5 Hz.
- t = 5.65s: transition (State D → State A) → c=1
 - t = 6.32s: transition (State A → State D) → c=2
 - t = 6.99s: transition (State D → State B) → c=3

Final Answer: 3
